

Senior Designer

Competition # 2020 SD 005

Location – Halifax, NS

Are you looking for a rewarding career in the shipbuilding industry? Do you want to work for a well-managed company that puts people first? If you are looking for a career that's more about making a life than simply making a living, then come aboard the Genoa team! As a key member of our growing Production Design Team, you will:

WHAT YOU'LL DO

As a Senior Production Designer, responsibilities include but are not limited to:

- Review the 3D model to ensure compliance with specifications, sketches, requirements, and structural and distributed systems technical drawings for the development of a 3D model.
- Compliance of 3D model with regulatory standards, classification rules (DNV, Lloyds/GL, etc), design guidelines, and client specific standards.
- Support client in structural and/or marine distributed systems design calculations;
- Direct the review and production of functional and detail design drawings;
- Interpret technical, detail design and construction drawings related to the 3D model structural design and/or distributed systems;
- Lead technical discussions for project reviews; and
- Additional duties and responsibilities as assigned that relate to technical leadership and integration of Genoa's projects.

WHO YOU ARE

We've drawn the conclusion that by design, you:

- Are a collaborative team player who can problem solve, make sound decisions, and manage competing priorities;
- Feel a company flannel is the perfect outfit for any occasion;
- Want to work at a place that is putting people first and has worked with you to set a career planning path that is 100% you;
- Own It, you go the extra mile and take responsibility and empower others to be accountable;
- Believe you can design a solution to any problem, one block at a time;
- Never Stand Still, and welcome each day as a new opportunity to learn, grow, and serve.

WHAT YOU'LL NEED IN YOUR TOOLKIT

- Engineering degree in a related discipline including Naval Architecture, Mechanical Engineering, OR the equivalent combination of education, technical training, and work experience;
- Minimum of eight years' marine design experience in related discipline, either structure and/or distributed/marine systems, or a combination;
- Experience working directly with regulatory bodies and classification societies;
- Experience with 3D product models for new ship construction &/or refit projects;
- Experience in marine production design will be considered an asset;
